Hiva Shahr Tejarat Co. Ltd

About us

Hasht Company (Hiva Shahr Tejarat) Founded by Innovation & Economic activists with 40 years of background & experiences in 2020.

We ensure that companies and producers will be provided with the best materials as soon as possible with variety of offers to help them keep up the good work. Also with having an Innovation Department, all of our customers can use best Advices from Elites.

In Hasht Co we have Innovation, Residence, Minerals and Food Departments. You can have our offers in Dubai and we cut the dealers and provide your demand straight from origin to ensure you get the best price and quality.

Innovation Department

New world needs new solutions, so in Hasht Co we use the knowledge & ability of Elites to make new ways.

In order of having a better life & work experience for all of our costumers, we invited young geniuses & professional professors to design a new way for all of us.

We respect new ideas & try to reach them to make ourselves & our world a better place.

Residence Department

By combining modern infrastructure with traditional culture, we started to build brand new residence to satisfy our costumers.

Hasht Residence

Hasht Residence has been at the forefront of Kerman luxury real estate market since 2016, delivering luxury residential, commercial and leisure properties across the city.

We have combined modern infrastructure with traditional culture to build brand new residence to satisfy our costumers.

Hasht properties is also a pioneer in designing and building modern villas for the time that people just want to relax at weekend in a peaceful atmosphere.

Mineral Department

We provide the best raw materials Such as Copper, Zinc Ingots, Feldspar, Garnet, Hydrated Lime & Dolomite to help them keep up the good work. You Can check & order all of our products by visiting Mineral Department on our website.

Zinc

Hasht holding trade the best zinc ingots with the best price. Ingots are generally the least costly metallic form and useful in general applications. Our ingots grade varies from special high grade zinc to prime western grade and are suitable for galvanizing industries, battery manufacture and other purposes.

Copper

Copper is one of the most commonly-used metals worldwide, and many of the largest mining companies are involved in its extraction from the earth. The reddish-gold metal has a range of industrial uses, and is often used in electronics due to its high electrical conductivity and its ability to be easily shaped into wiring. It is also a good conductor of heat, giving it additional properties prized by industry. We supply almost every copper product from four factories of foundry shop, rolling shop, Extrusion shop and coin shop.

Hydrated Lime

Hydrated lime is also used to produce other metals.

In construction, the dominant use of hydrated lime is in soil stabilization for roads, earthen dams, airfields, and building foundations. Hydrated lime can be used to raise the pH of acidic soils. This is also referred to as soil sweetening.

In Hasht Co We provide Hydrated Lime with high quality (91% Grade) & best price.

Garnet

In Hasht Co we Provide Different types of Garnet for customers.

Garnet abrasive is most commonly used as a high-performance blast media, for the cleaning of aluminum and fiberglass structures.

Because it is an inert, non-toxic, naturally-occurring mineral, garnet abrasive is also used on sites where water contamination is a concern, such as dry docks, bridges and harbors.

Feldspar

Feldspar is used for glass production, ceramic manufacturing in body and glaze uses.

In Hasht Co we provide to types of Feldspar, for more information you can check Feldspar Product Analysis on our website's Mineral Department.

Food Department

We offer you Most best & luxury Taste of the world!

Hasht Co Provide Iranian High Quality Saffron & Pistachio.

Check our Pistachio & Saffron Products with new & Environment-Friendly packaging on our website & let us know your orders.

Pistachio

When it comes to pistachio quality, Persian pistachio shines high above the others and its quality is beyond any doubt. We have taken one step forward by roasting the world's finest pistachio to produce the world's finest roasted pistachio.

Zoleikha pistachios are grown in Rafsanjan, Kerman Province.

Rafsanjan Pistachio has always been one of the top pistachios in the world because of its special environment which is completely suitable for growing pistachio.

Zoleikha Pistachios come in 50g can & Jar, 250g can & metalized bag which is enough for one person's consumption and is suitable for luxury hotels' mini bar.

A 50g serving (about 50 nuts) has 160 calories and a host of vitamins, minerals & other nutrients in addition to 7 grams of monounsaturated and 4 grams of polyunsaturated fats that are considered heart healthy in the context of a healthy dietary pattern.
